VIOGNIER - INDICATION GEOGRAPHIQUE PROTEGEE ARDECHE

TERROIR :

This cuvée is 100% Viognier, from old vines planted on the most beautiful plots. Overlooking the estates, the vines grow on calcareous, deep and stony soils.

The vineyard management :

- 1 row out of 3 is naturally grassed by different species such as oats, beans and rye to provide nutrients necessary for the vine
- 2 rows out of 3 are worked to aerate the soil and avoid excessive plant competition.

We also practice cord pruning, then stripping when grapes grow so that the bunches of grapes take advantage of the light and benefit perfectly from the sun.

WINEMAKING :

Harvested on September 13, 2023, the grapes are transported to the cellar where they go through a first phase of selection with destemming and qualitative sorting. The bunches are then delicately transported to the press. The pressing is carefully monitored to separate the free run juices as well as the first pressing juices from the end of the presses. These juices flow naturally by gravity into the vats. A cooling phase follows allowing the separation of the juice from the lees. The alcoholic fermentation takes place in a French oak barrel of 30 hl. Once fermentation is complete, the wine is aged in contact with fermentation lees, to give structure and velvety texture.

TASTING :

This cuvée offers a beautiful light gold color with delicate silver reflections, aromas of lime blossom and orange blossom underlined by notes of fresh apricot.

To the palate, roundness and freshness with a nice volume and a long lasting finish.
